INTERNATIONAL WOMEN'S DAY CELEBRATIONS

8TH MARCH
INTERNATIONAL
WOMEN'S DAY
Every woman's success should be
an inspiration to another

March 8th marks International Women's Day – a **global celebration dedicated to uplifting women and honoring their achievements**. But this feel-good day started off as more than a day to celebrate the women in your life – it was born out of socialism, protest and a fight for labor rights.

As a part of this Gland Institute of Pharmaceutical Sciences celebrated the Women's Day on March 8th 2022 with the encouragement from our principal Dr. N. Sivasubramanian. All the women faculty celebrated the event by playing the games, followed by cake cutting. All the teaching, non-teaching and house keeping members actively participated and made the event a grand success.

Principal of Vishnu Institute of Pharmaceutical Sciences, **Dr. A. Ramesh** addressed the gathering on the occasion of women's day. He also addressed the students as district sustainability mentor, Mahatma Gandhi National Council for Rural Education, Ministry of Education on the opportunities after graduation and self-sustainability.

He also educated students about rural sanitation, mentoring, construction of 1 crore toilets across the country as a part of Swach Bharat Mission.
